HAPPY SPOOKTOBER

Happy Halloween!!!

Settlements

\$850,000- Pedestrian Knockdown- While walking her dog and in a crosswalk, the plaintiff was hit by a car making a left-hand turn and suffered a

fractured leg necessitating surgery. The dog was unharmed.

\$405,000- Motor Vehicle- The vehicle the plaintiff was operating was hit by a vehicle that was leaving a parking lot. Plaintiff suffered neck and shoulder injuries that required surgery.

\$230,000- Premises Liability- Due to a water main break that flooded the streets and froze over, the plaintiff slipped and fell on ice and fractured her ankle. We were able to show that the utility company failed to put down cones or other devices to warn of the dangerous condition.

\$215,000- Pedestrian Knockdown- While crossing the street with the signal, a vehicle making a left hand turn struck the plaintiff knocking him to the ground. Plaintiff suffered shoulder and back injuries and had shoulder surgery. There was a question of lights, but we were able to confirm that plaintiff had the right of way through witness testimony and the police confirming the traffic light patterns.

Q: What is a Safety Program?

A: A safety program is a set of policies and work practices specifically designed to reduce hazards and assure a safe work environment. It incorporates regulations and guidelines as established by the OSHA, the Occupational Safety and Health Administration. An effective safety program focuses on a commitment to monitor and improve safety on a regular basis.

🐾 Pet Corner! 🐾

This is Bear. He is a German Shepherd mix and approximately 4 years old. He belongs to the Fraas family where he is very loved. Bear is afraid of water, so as long as it isn't raining outside, he loves to run around the backyard and relax in the sun.
